05 Assembly method

Precautions when assembling

* Please be careful not to pinch or press your hands when folding.

* Because of the risk of injury, be sure to operate with two people when moving or assembling the product.

* When clamping the safety clip, please lift your legs slightly, the clip will easily enter after shaking it from side to side.

1. Now clamp the fixing clip at the fixed foot. 2. Clamp at the end of the reverse side.

* When it is difficult to change the angle, you can slightly loosen the screws connecting the two fixed feet and readjust it.

Installation steps 01

1. Open the packaging, cut the zip ties with scissors, and remove the accessories.

2. Check the quantity of accessories.

3. Install the small headrest and tighten the knob.

4. Pull out the two side locks at the top fold and unfold the frame.

5. As shown in the picture, lift the folding armrest and unfold the frame. (Note that two people can also collaborate to develop the framework)

6. Take the pulley rod and unscrew the adjustable device knob to pull it out outward.

7. Insert the pulley rod and release the adjustable screw to lock the gear.

8. As shown in Figures 6 and 7, install the pulley rod on the other side.

Installation steps 02

9. Pull out the support pins on both sides of the rear tripod.

10. Pull out the two support pins of the front tripod.

11. Lift the frame and unfold the front stand, ensuring that the front stand is fully unfolded.

12. Insert the two support pins into the front tripod holes and lock them.

13. Unfold the rear tripod, insert the two support pins into the holes of the rear tripod and lock them.

14. As shown in the figure, insert the M10*40 bolt into the spacer and insert it into the armrest plate hole, and install a gasket on the other side.

15. Use a large hex wrench to tighten the bolt.

16. Unscrew the bolts and nuts from the top holes of the armrest panel.

Installation steps 03

17. Insert the handrail into the hole of the handrail board.

18. Insert the bolt into the hole and tighten the nut with a small hex wrench and an open-end wrench.

19. Take another armrest and unscrew the bolts and nuts in the top hole.

20. Insert the armrest rod into the plate hole, install the bolt, and use a small hex wrench and an open-end wrench to tighten the nut.

21. Insert the M10x40 screw into the spacer, insert it into the bottom hole of the armrest board, install a gasket on the other side, and tighten it with a large hex wrench.

22. Lift and remove the foot pillow.

23. As shown in the figure, remove the spring.

24. Push the cushion to the other side.

Installation steps 04

25. Take a stop block and M8*30 bolt, insert them into the hole.

26. Use a small hex wrench to tighten the bolt.

27. Use a small hex wrench to tighten the bolt.

28. As shown in the figure, install the other side stop block.

29. Snap the spring onto the hook.

30. It can adjust the number of fixed device roots and control the strength when using.

31. Put back the foot pillow.

32. Insert the foot pillar into the hole and tighten it.

Installation steps 05

33. Insert the foot pillar into the hole on the other side and tighten it.

34. Take the wheel and M8*16 bolt/gasket, and tighten them with a small hex wrench.

35. Follow the steps in Figure 34 to install the wheel on the other side.

36. Install two shoulder pad as shown in the picture.

37. Place the foot mat at the bottom of the tripod and complete the installation.

Step of folding 01

1. Adjust the armrest tube to the position shown in the picture.

2. Pull out the support pins on both sides of the front stand.

3. Pull out the support pins on both sides of the rear tripod.

4. Lift the frame, fold the tripod, insert the support pin to lock it.

5. Fold the front tripod and insert the support pin to lock it.

6. Pull out the adjustable knob and take out the pulley rods on both sides.

7. Grasp the folding armrest below the panel and lift it upwards.

8. Insert two support pins into the side holes on both sides to lock the steel frame.

Step of folding 02

9. Place the pulley rod and shoulder into the storage hole.

10. Folding completed.

NOTE WHEN USING AGAIN

1. Take out the two pulley rods and the shoulder pads.

2. Pull out the two side latches and unfold the frame.
